**Protect your business with Mobile
Patrol & Alarm Response Services
from Commissionaires BC.**

Our Mobile Patrol and Alarm Service is only available in Kelowna and the surrounding Southern Interior at this time. Coverage in other areas is planned.

IS YOUR BUSINESS SECURE?

Making sure your business is protected everyday is just one more thing to do in your busy schedule. You may even have an internal alarm, but by the time it goes off it's too late! Commissionaires BC has a mobile patrol in your area 24/7. Commissionaires will supplement your internal alarm system with mobile patrol and alarm response services manned by experienced security professionals.

MOBILE PATROL

Our mobile patrol does more than simply alert you to a break in. We will proactively patrol and physically check your premises, during times specified by you and as frequently as you'd like, to ensure your business is secure. Our checks include:

- > securing gates;
- > making sure external doors are locked;
- > checking windows;
- > walking around the perimeter of your business.

But that's not all, if there is a problem such as unusual activity or suspicious persons, we'll deal with it. This includes calling the police if necessary and staying on the scene until the matter is resolved.

WHAT IF THERE IS AN ALARM?

If there is an alarm you can trust us to get there quickly and deal with it efficiently. We will:

- > quickly attend in person;
- > go into your business and perform a thorough external and internal inspection;
- > coordinate with police as necessary (e.g., to carry out a break and entry investigation);
- > make sure your business is re-secured after an alarm call before leaving;
- > prepare a full incident report and make sure your business is re-secured before leaving.
